VINEYARD CHALET

Whether its turning base metals into gold or divining wine from grapes, alchemy is the magical process of converting one substance into another. Husband and wife partnership Brad and Sarah Mitchell both originally started their careers as metallurgists in mines procuring precious metals such as gold, copper and nickel, before turning their hand to transforming the humble grape into a divine elixir. Now, as well as sampling their fine wines you are also welcome to stay at The Alchemists Vineyard Chalet, a magical country retreat overlooking the surrounding vines and set amongst picturesque bushland.

## The Vineyard

The Alchemists have 35 acres of vineyard. Stroll through plantings of Cabernet Sauvignon, Merlot, Shiraz, Malbec, Semillon, Sauvignon Blanc and Chardonnay, for which the region is most acclaimed.

Well recognised as having perfect conditions for crafting premium wines, Margaret River's unique soils, warm summers refreshed with afternoon sea breezes and wet and cold winters make it an absolute paradise for grapes.

The Alchemists adhere to sustainable farming practices, with a focus on nurturing healthy vines to achieve the most intense fruit flavours possible in our wines. Try our wines for yourself by selecting from Cabernet Sauvignon, Rosé or Semillon Sauvignon Blanc.
